What is an On Demand employee?

An On Demand employee is a worker hired permanently, on a temporary or fixed term contract basis to perform specific role, tasks or projects as needed. Our candidates are motivated to work on premise and remotely, providing a range of services from administration support to specialised technical expertise across most industries.

In today's fast-paced business environment, the ability to quickly adapt and scale is crucial. Our temporary On Demand employees offer unparalleled flexibility, allowing you to ramp up your workforce during peak times and scale down when things slow down. HOW IT WORKS

We meet with you to take the position brief. This includes getting to know your organisation, the role and skill requirements, culture, required due-diligence checks and timeframes. We provide you with our Terms & Conditions and fee structure for temporary and permanent recruitment.

We post the vacancy onto our job board, manage applications and complete a comprehensive search for candidates who meet your criteria. We complete necessary screening and pre-due-diligence checks and then present you with a shortlist of suitable individuals.

We then coordinate interviews and any further background and reference checks. Once you have made the decision on hiring, we assist in contract negotiation if needed. We coordinate first day placements and have regular checkins following employment starting.

You enjoy the benefits of highly skilled temporary or permanent individuals making a difference to your business.
